

Args

```
graph BT; A["tesseract_common::ambiguate< Args >"] --> B["Args"]
```

A diagram illustrating a function signature and its argument type. At the bottom, a gray rectangular box contains the text "tesseract\_common::ambiguate" on the first line and "< Args >" on the second line. A blue arrow points vertically upwards from the center of this box to a white rectangular box at the top, which contains the text "Args".

tesseract\_common::ambiguate
