

tesseract\_common::TestPluginBase

```
graph BT; TP[tesseract_common::TestPlugin<br/>Multiply] --> TPB[tesseract_common::TestPluginBase];
```

A UML class diagram illustrating inheritance. At the bottom is a white box representing the 'tesseract\_common::TestPlugin' class, with the method 'Multiply' listed below its name. A blue arrow points upwards from this box to a gray box at the top representing the 'tesseract\_common::TestPluginBase' class, indicating that 'TestPlugin' inherits from 'TestPluginBase'.
